						WX number	Aging Infrastructure Water Source Unserviced Customers Service Quality Other												If other list benefit here
3	McLean	1	North McLean County Water District	North McLean County Water District Line Extensions and Replacements	WX21149025	Aging Infrastructure		-	1,232	\$ 700,000	\$ 250,000	Mar-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	Line Item Grant	HB608 - \$250,000 HB380 - \$200,000	No		65	This project proposes to construct a water line extending from the Calhoun tank and tie into a 10 inch line on KY 250. A master meter will be included. On the whole, the project will ensure better service to all customers of the North McLean County Water District.
10	McLean	2	North McLean County Water District	431 Tank Project	WX21149022	Aging Infrastructure		-	800	\$ 500,000	\$ 250,000	Apr-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	Line Item Grant	HB608 - \$250,000	No		59	This project involves the construction of a 500,000 gallon stand pipe to be constructed next to the existing water tank. The current system cannot meet the requirement for a 24 hour hold period, and if there were a power outage, the system would not have enough water to provide for a twenty-four hour period. In addition, a proposed pump station will be built near KY-250 towards Calhoun. The exact location for this pump station has not yet been determined.
13	McLean	3	Calhoun Water Works	Calhoun Raw Water Pump Replacement	WX21149031	Aging Infrastructure		-	485	\$ 40,000	\$ 40,000	Feb-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		55	This project will replace two raw water pump at the intake for the City of Calhoun. The current pump requires constant maintenance and has become unreliable.
17	McLean	4	Sacramento Water Works	Garrett Street Water Line Improvements Project	WX21149037	Unserviced Customers		8	-	\$ 42,000	\$ 42,000	Jun-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	Yes		53	Garrett Street is underserved with the existing 2" waterline for current and future residents to provide fire protection. The city desires to construct 750 LF of 6" waterline and 200 LF of 3" waterline from the intersection of Cherry Street and East 3rd.
18	McLean	5	McLean County Fiscal Court	Fox Hollow Road Water Line Upgrade	WX21149029	Aging Infrastructure		-	3,900	\$ 100,000	\$ 100,000	Jun-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		50	This project will upgrade an existing 2.5' water main along Fox Hollow Road to a 6' main in Island, KY. The estimated project cost is 100,000.
19	McLean	6	McLean County Fiscal Court, Beech Grove Water Association, Calhoun Water Works, Island Water Department, North McLean County Water District, Livermore Water Works.	McLean County Water Needs Analysis	WX21149033	Water Source		-	4,300	\$ 150,000	\$ 150,000	May-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	Yes		45	This analysis will consider countywide water supply, distribution and storage needs. Such a study should uncover the true priorities for every system to ensure strong and viable water projects, as well as the most efficient allocation of funds. In addition, the study will address the financial impact of the needs as they exist now.
24	McLean	7	Island Water Dept.	Island Water Line Improvements Project	WX21149001	Aging Infrastructure		-	520	\$ 1,210,000	\$ 430,000	Apr-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	Line Item Grant	HB380 - \$175,000 Local Funding - \$605,000	No		45	This project has three elements: 1) extension of a 6-inch main to the "Krohn" area off of KY 136 & 168b; 2) all 6 and 8 inch mains throughout the system are asbestos. The city is looking to replace these mains, as well as rehab all 2.5 inch mains.
27	McLean	8	Beech Grove Water Association	Beech Grove Looping Project	WX21149021	Unserviced Customers / Service Quality		100	508	\$ 700,000	\$ 500,000	May-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	Line Item Grant	HB608 - \$200,000	No		43	This project will allow the Beech Grove Water Association to loop several lines in their system to improve pressure throughout the system. The association plans to loop mains along KY 1233 to KY 258, along KY 1233 to Cox Road, along Kazer North Road to Howards Mill Road and along Howards Mill Road and KY 140. This project will also require the installation of a pump station near KY 136 and KY 56.
36	McLean	9	Sacramento Water Works	Hwy 81 Water line Loop	WX21149015	Unserviced Customers / Service Quality		2	-	\$ 3,200	\$ 3,200	Mar-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		40	This project will allow the Sacramento Water System to tie together two existing lines on Hwy 81.
43	McLean	10	Sacramento Water Works	Patterson Road Water Line Loop	WX21149016	Unserviced Customers / Service Quality		3	-	\$ 3,100	\$ 3,100	Feb-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		38	This project will allow the City of Sacramento to tie in two existing line along Patterson Road to increase pressure to customers in the area.
45	McLean	11	Beech Grove Water Association	Beech Grove Water Board Water Line Extension Project	WX21149011	Aging Infrastructure		3	50	\$ 300,000	\$ 45,000	Mar-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	Line Item Grant	HB267 - \$205,000 HB267 - \$50,000	No		38	This project involves the upsizing 7,000 linear feet of water main from the water tank to the intersection KY 256 and KY 739 to a 6 inch main as well as, installing 32,900 linear feet of additional 6 inch main from along KY 739 and along KY 136 and KY 140.
52	McLean	12	Calhoun Water Works	Calhoun Water Line Improvements	WX21149012	Aging Infrastructure		-	51	\$ 250,000	\$ -	May-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	Line Item Grant	HB267 - \$175,000 HB380 - \$80,000 HB380 - \$50,000	Yes		35	This project will replace 64 year-old 2-inch water lines, tap-in and reconnect with 10-inch water lines to improve serve to 51 customers. The new 10-inch main will begin north to Highway 136 on Walnut Street approximately 1.5 miles and continue east on Branch Street to Center Street approximately .25 miles. The existing water lines in the area are inadequate for water flow to fire hydrants and customers. This project will be constructed in two phases.
63	McLean	13	Calhoun Water Works	Calhoun Meter Replacement Project	WX21149036	Aging Infrastructure		-	100	\$ 20,000	\$ 20,000	Dec-09	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		30	Nearly 100 of the water meters in the City of Calhoun are deteriorating or not functioning properly. In order to avoid miscalculating customers' bills, the city proposes to replace all 100 meters. At this time, a single manual read meter can be purchase.
67	McLean	14	Livermore Water Works	Livermore Meter Replacement Project	WX21149043	Aging Infrastructure		-	615	\$ 201,908	\$ 201,908	Dec-09	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		30	The meters in the City of Livermore are rapidly deteriorating. This project will buy all the necessary software and equipment to redo the entire system.
89	McLean	15	Beech Grove Water Association	SCADA System Improvements Project	WX21149006	Aging Infrastructure		-	100	\$ 150,000	\$ 150,000	Dec-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		20	This project will provide electrical service and telemetry to water tanks and booster stations in the Beech Grove System for continuous monitoring and operation from Henderson Water Utility.
91	McLean	16	Sacramento Water Works	Sacramento Water Line Replacement Project	WX21149023	Aging Infrastructure		10	65	\$ 424,000	\$ 424,000	Feb-10	CDBG/SRF/Line Item Grant/RD Loan & Grant/IRLF/EPA	None	None	No		18	The Sacramento Water Line Replacement project proposes to update several 2 inch lines to 6 inch lines. A 2 inch line that extends along Patterson Road to HWY 254 will become a 6 inch line, as will a 2 inch line that runs down J West Road. A 2 inch line along Hwy 81, in front of Miss Supply, will also become a 6 inch line. Additionally, certain areas of the system currently dead end. A 6 inch line along HWY 85 dead ends below N. Plain Road; however, this project intends to extend the line to Revelett Stroud. Lines from Patterson to Lees Road will be joined as well. An extension on B. Richards Road is planned, as a 2 inch line will be added between two six inch lines. The upgrades and extensions will allow service to new customers and chicken houses and will improve the overall quality and quantity of water. Tying up dead ends in the system will also eliminate bacterial growth.
